White Paper

Supported Third-Party Products and Discontinued Features

Valid from December 4, 2023

Contents

1 Supported Third-Party Products

The following table lists important supported third-party products for the various versions of Fabasoft Folio.

Detailed information regarding versions, service packs, editions, platforms and boundary conditions of supported third-party products can be found in the software product information of the respective Fabasoft Folio version.

Note:

- Supported service packs, editions and platforms of third-party products are not listed in this table (see software product information).
- Some third-party products are supported only in specific combinations (see software product information).
- If a version has changed in comparison to the previous version, the corresponding cell is shaded light blue.
- A hyphen denotes that the third-party product is not supported for the corresponding Fabasoft Folio version.

Third-Party Products	2020	2021	2022	2023	2024
