1 Introduction

Mindbreeze uses sub-processors for the provision of Mindbreeze InSpire SaaS in the respective service package selected, including data center operation.

Sub-contractual relationships within the meaning of this provision shall be understood to be those services which relate directly to the provision of the main service. This does not include ancillary services which Fabasoft uses, for example, as telecommunications services, postal/transport services or the disposal of data carriers, as well as other measures to ensure the confidentiality, availability, integrity and resilience of the hardware and software of data processing systems. However, Fabasoft shall be obligated to enter into appropriate and legally compliant contractual agreements as well as control measures to ensure data protection and data security of the Customer's data even in the case of outsourced ancillary services.

2 Sub-processors

2.1 Data centers
