

Fabasoft AG – Advance information on results for the first quarter 2006/2007

Fabasoft AG (ISIN AT0000785407, WKN 922985, Prime Standard) announces that sales revenues and EBIT for the first quarter 2006/2007 (1/4/2006-30/6/2006) will be below that of the same period of the previous year (1/4/2005-30/6/2005: sales revenues EUR 5.2 million, EBIT EUR -0.4 million).

This is due in particular to the slow development of new licence business within the reporting period. Consequently, the ordering characteristics of major customers and potential major customers of Fabasoft products again appear to be highly volatile for the fiscal year 2006/2007.

Concrete figures for the first quarter 2006/2007 will be published on 3 August 2006.

Fabasoft is a leading manufacturer of standard software for electronic government and Enterprise Content and Records Management. Fabasoft primarily serves major customers in Austria, Germany, Switzerland, Great Britain and Slovakia.
